

CROSS REFERENCE

As a result of the 2003/2004 Cycle, the International Energy Conservation Code (IECC) has been substantially revised and reformatted. The following is a cross reference between the 2003 edition and the 2004 supplement.

2003 IECC

Chapter 1 Administration

Chapter 2 Definitions

Chapter 3 Design Conditions

Chapter 4 Residential Building Design by Systems Analyses

Chapter 5 Residential Building Design by Performance Approach

Chapter 6 Simplified Prescriptive Requirements for Detached One- and Two-Family Dwellings

Chapter 7 Building Design for All Commercial Buildings

Chapter 8 Design Acceptable Commercial Practice

Chapter 9 Climate Maps

Chapter 10 Reference standards

Appendix

2004 Supplement to the IECC

Chapter 1 Administration and Enforcement

Chapter 2 Definitions

Chapter 3 Climate Zones

Chapter 4 Residential Energy Efficiency

Chapter 5 Deleted – Residential provisions located in Chapter 4

Chapter 6 Deleted – Residential provisions located in Chapter 4

Chapter 7 Deleted – Commercial provisions located in Chapter 8

Chapter 8 Building Design for Commercial Buildings

Chapter 9 Deleted – Climate Information located in Chapter 3

Chapter 10 Reference Standards

Appendix Deleted
